KAROLINA MROZ

Rotherham, UK | Remote Available | kwintuj@gmail.com | 07424 734922
Portfolio: cv-chatbox.vercel.app | GitHub: github.com/karolinamroz

PROFILE

.NET Software Engineer with 3+ years of experience delivering client-facing solutions in legal tech and charity sectors. Currently sole developer responsible for an enterprise client account, leading technical decisions and client communication. Track record of improving team productivity and modernising legacy systems. Seeking mid-level roles with client interaction and pathway to technical architecture.

TECHNICAL SKILLS

Core: C#, .NET Core, ASP.NET (WebForms & MVC), Entity Framework, SQL Server, REST APIs
Frontend: JavaScript, Vue.js, React, HTML/CSS, Tailwind CSS
Cloud & DevOps: Microsoft Azure (AZ-900 certified, studying AZ-104), CI/CD, Git
Other: AI integration (Groq, LLMs), Brevo API, Vercel, OWASP security principles

PROFESSIONAL EXPERIENCE

Software Developer | Paloma Systems | Remote | Jan 2024 – Present
Sole developer managing full client relationship *for a domestic abuse charity, responsible for their enterprise case management system.*

- Doubled feature delivery rate compared to previous developer, consistently shipping 4+ features monthly while maintaining code quality
- Lead weekly client calls to gather requirements, demo features, and align technical solutions with business needs
- Make independent architectural decisions on feature implementation, database design, and system improvements
- Own the full development lifecycle: requirements gathering → design → development → code review → deployment
- Implement security-first development following OWASP principles for sensitive client data
- Collaborate in code reviews and contribute to CI/CD pipeline improvements

Software Developer | Expedite Law | Brighouse | Apr 2022 – Jan 2024
Built integrations and modernised legacy systems *for legal technology products serving multi-user law firm environments.*

- Engineered API integrations extending MatterSphere product functionality for legal workflow automation
- Led legacy code modernisation initiative, improving system response times by 30%
- Worked directly with 2 client accounts gathering requirements and delivering custom solutions
- Enhanced database performance through query optimisation and stored procedure refactoring

EDUCATION & CERTIFICATIONS

BSc (Hons) Computer Science | Sheffield Hallam University | 2019–2022 | 2:1
- Microsoft Certified: Azure Fundamentals (AZ-900) | 2025
- Azure Administrator Associate (AZ-104**)** | In progress
- ASP.NET Core Identity: Authentication & Authorization | 2024
- Udacity Nanodegree: SQL | 2023

KEY STRENGTHS

- Client-Facing Communication: Lead client calls, translate business needs into technical solutions
- Independent Delivery: Trusted to own entire client accounts with minimal oversight
- Quality Focus: Consistently deliver ahead of schedule while maintaining code review standards
